LABORATOIRES

Protecting your health through innovation
Product List

For 40 years, our aim has been to offer the most effective and innovative active ingredients. We strive to highlight the noblest qualities of each plant while considering the production environment as a whole. We promote cutting edge ingredients supported by strong efficacy data, produced by non-denaturing processes including our unique knowledge, the molecular distillation.

What sets Laboratoires Expanscience apart is our pharmaceutical culture and the B CORP certification.

ACTIVE INGREDIENTS

Hydrosoluble

Number 6
